Mod. **M118**

PNEUMATIC VIBRATING SALT LOADING MACHINE

- Powder coated aluminum and steel structure for greater resistance to corrosion. Salt recovery system. Vibration frequency adjustment via flow regulator. Double profile locking system.
- Possibility of loading multiple profiles of different sizes at the same time (max 30 pieces of 12 mm). Display of the salt load. Workable profile sizes from 60 mm to 4.000 mm.
- Protection against access to dangerous parts of the machine according to European regulations.

M118

TECNICAL SPECIFICATIONS

Pneumatic power supply	Max 6 Bar
Tank capacity	Max 30 kg
Height	1.500 mm approx
Length	2.300 mm approx
Width	500 mm approx
Weight	80 kg approx

M118

LOADING

Possibility of loading multiple profiles of different sizes at the same time (max 30 pieces of 12 mm).

GAUGE

Check the presence of air in the pneumatic system using a pressure gauge. Pneumatic motor lubrication system.
